

“We have mastered  
the science of perfect  
events.”

# Your events in one of the smartest places of Berlin

Our portfolio in Adlershof

## Offer your guests champagne and canapés – and a view of Planet Mars

**Josephine Kutsche**  
Event Manager  
WISTA conventions

Most of us have been guests at various events ourselves. A truly awesome event is more than just champagne and canapés.

Knowing this, we want to inspire you and your guests – with our unique venues and wide range of services set against the backdrop of innovation, technology, and science. In addition to providing your event with just the right venue, we also want everything else to be just right. We will walk you through futuristic laboratories, let you experience spectacular architecture, and meet people who are striving to make the world

Details of the modular aerial camera system MACS with four lenses covering the visible and infrared spectral range

Energy of the future: resource-friendly solar cells with improved lifespan

a more secure and sustainable place – even before the main course is served!

We are not only event professionals but also Berlin's most important player in bringing together science, technology, and business. In this respect, we believe that Adlershof is one of the most exciting places in Berlin – and also the most exciting venue for your events. We are the only place that serves up finger food with dazzling perspectives on future technologies – in a place that has unique history and aura.

Adlershof, the cradle of German aviation, is now one of the most successful science and technology parks in the world

It was here that aviation pioneer Melli Beese became the first woman in Germany to obtain a pilot's license. Fast forward to today, people from many different countries are coming together to conduct pioneering research and to work on the products of tomorrow. Depending on your wishes, we will gladly tie in recent research and developments into your event and make it an exciting experience that will educate as well as entertain your guests. We are looking forward to you, your guests, and your theme!

Yours,

  
Josephine Kutsche

# Inspiring venues for perfect events

Explore the highlights of Adlershof

Adlershof boasts **47,500 sqm** for research and **4,500 sqm** for inspiring conferences, functions of all sizes, and other events: We have a large selection of event venues at our disposal no matter what the occasion. The Adlershof site boasts a unique spectrum of conference rooms, scientific laboratories, futuristic technology centres, and historic sites. We invite you here to network, hold meetings, give multimedia presentations, celebrate, or to just come together and relax. Whether you're hosting 10, 50, or 600 guests, we will make sure you have everything you need. If you're planning events spanning several days, a selection of local on-site hotels and guest houses will gladly welcome you and your guests.

## ADLERSHOF

Adlershof is home to 1,100 companies - from manufacturers of laser diodes to the largest television studio in Berlin. The site boasts a broad range of event venues covering **2,350 sqm**, each fitted with state-of-the-art technical equipment. It is the perfect event location for people who wish to get a better idea of future developments in IT, media, or sustainability issues. The researchers from our site work on novel storage technologies and navigation solutions, energy-efficient buildings, smart living, and the use of alternative energy sources, including geothermal energy and photovoltaics.

# An apéritif in a wind tunnel, a presentation amidst high-tech labs

Smart side activities for your events

Enjoy guided tours of our on-site research institutes and gain insights into their recent research projects.

Experience the prototypes of the 'Energie-wende' (Germany's exit from nuclear and fossil-fuel energy) 40,000 LEDs on the BTB's local power plant display how much heat is stored in the towers.

Our guided tours take you to see the monuments of aviation, for example, the Great Wind Tunnel (see above)

Enjoy your coffee at the "esswirtschaft", located on the forum, the square, right in the heart of Campus Adlershof.

We are the only event location where you can enjoy your aperitif inside a historic wind tunnel, which was used to test Germany's fastest aeroplanes almost a century ago, where you can take a guided tour of state-of-the-art research labs after lunch, and where you can have a cappuccino at spectacular event venues.

We will gladly sit down with you to tailor suitable and intriguing side activities for your event.

An overhead photograph of a dining table set with a white tablecloth. The table is laden with a variety of dishes, including large metal chafing dishes containing roasted chicken and lobster, several small bowls of colorful salads and dips, and plates of pasta and bread. People are seated around the table, some holding plates and cutlery, engaged in conversation and eating. The background shows a wooden floor and the lower parts of other diners.

## Buttered pike Turbot and stimulating conversation

Smart people deserve excellent catering

We offer the ideal catering for your convention, conference, or function. By providing first-class service and using only high-quality ingredients, our experienced catering partners will satisfy your needs whatever your budget: from a simple breakfast, to barbeque, or sophisticated dinners. Regional, home cooked, organic, vegan, international, or fusion – we will organise the type of catering that will make you and your guests happy.
